DETAILED ACTION

Allowable Subject Matter

1. Claims 1-8, 10-15, 18, 28, 29, and 31-41 allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 1-8, 10-15, and 18 are allowed because, as indicated in the Office Action dated December 5, 2006, none of the prior art of record discloses or suggests the step of reconnecting the first power source to the load when the first value is within the range and while the second power source continues to provide power to the load, in combination with the remaining claimed features.

Claims 28, 37, and 39-41 are allowed because, as indicated in the Office Action dated December 5, 2006, none of the prior art of record discloses or suggests the use of the claimed default frequency generator, in combination with the remaining claimed features.

Claims 29 and 38 are allowed because, as indicated in the Office Action dated December 5, 2006, none of the prior art of record discloses or suggests the use of the claimed grid perior stretcher, in combination with the remaining claimed features.

Claims 31-36 are allowed because, as indicated in the Office Action dated December 5, 2006, none of the prior art of record discloses or suggests the step of deliberately attempting to drift the frequency from the second power source away from the frequency from the first power source, in combination with the remaining claimed features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

3. Applicant's arguments, see Remarks, filed September 21, 2006, with respect to the objections and rejections have been fully considered and are persuasive. The objections and rejections have been withdrawn.
